

## Faculty of Physician Associates (FPA) Strategy 2018-2023

### FPA Strategic Aims

Over the next five years, the FPA will be focused on delivering the following strategic aims:

**1. We will support the improvement of care provided for patients**

We are committed to supporting physician associates to provide consistent, high quality patient care across specialties

**2. We will represent and support our members**

As the profession evolves we will continue to develop our members to be the best, champion their successes and provide a quality membership service

**3. We will raise the profile of the profession**

As we await professional regulation, we will continue to collaborate with stakeholders and promote the role and remit of physician associates within the wider healthcare team. We also remain committed to keeping our membership informed on professional issues.

**4. We will invest in our future**

It is imperative that we develop a sustainable future for the FPA using our resource and expertise in an efficient and effective way.

**5. We will evidence our impact on patient care and the workforce**

We will strive to demonstrate achievement of objectives and outcomes through evidence based findings.
